N. B. Those species to which the word *vera* is attached, have been hitherto almost invariably sent to Europe with inaccuracy, for the *Juglans sulcata*, they have been sent a variety of J. alba vel squamosa; for *Fagus ferruginea*, the sylvatica; for *Asclepias variegata*, a variety of syriaca; for *Juglans aquatica*, a variety of Juglans amara; for *Quercus laurifolia*, a variety of virens; for *Vitis rotundifolia*, *Xylosteum solonis* and *ciliatum*, and some species of *Ilex*, other species and varieties; for *Hibiscus virginicus* a variety of palustris; for *Baptisia alba*, the cerulea *v. alba*; for *Miegia macrosperma*, the Arundo donax; and, in the same manner, with many other species; and some species which are now enumerated in the European catalogues, will be found on examination not to have yet found their way to Europe.
